

# Gatehouse Snooker Club

## 2021 Snooker Handicap Competition

### Rules

- 1 There are 9 of us and everyone should play everyone else, so there are 4 matches scheduled for each of 9 weeks.
- 2 Games are nominally scheduled to start in the week leading up to 9th October with further games being played at 7-day intervals. These "due dates" are purely to help players to schedule matches, they are not commitments.
- 3 Games can be played at any time, but players are asked to **try to play matches regularly.**
- 4 There is no penalty for not playing games before the due date, but **all league games should be played by Saturday 4th December.** Please note that each week begins on a Sunday (previously we have used Monday as the start of a week).
- 5 Each frame starts with the higher handicap player having the difference between the 2 handicap levels (as previously), and the lower handicap player starts with zero. If both players have the same handicap then each player starts at zero.
- 6 Whenever the difference in handicaps between 2 players in the same match exceeds **60** then the higher handicap player will start at 60 points, the other player starting at zero.
- 7 Handicap levels have been kept at levels used in 2019. (see Results sheet)
- 8 3 points for a win, 1 for a loss.
- 9 **Please email all results to Graham.** Include date played, players names and scores from each frame played.
- 10 All league matches are on a best-of-3 frames basis. The top 4 in the league will take part in semi-finals, 1st playing 4th and 2nd playing 3rd. The semis and final are each on a best-of-5 frames basis.
- 11 If 2 players have the same league table points then the player with highest difference between frames won and lost will have highest league position for the purpose of arranging semi-finals. If equal on frames difference, then the player with highest difference in total points scored over all games will take the higher league position. If players are still equal then the higher league position will be judged by the toss of a coin.

Good luck and enjoy your snooker
